16 JUN 1978

MEMORANDUM FOR: Acting Deputy Director of Central Intelligence

FROM: Director of Central Intelligence

SUBJECT: Conversation with Secretary of Defense,  
15 June 1978

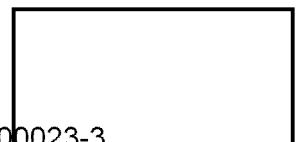

1. I delivered a paper on the collocation of the Defense Intelligence School. I told him I wanted to see if he had any thought that this could work; that I didn't want to get the Indians all upset until we were sure that he and I thought there was some prospect here and hoped he would keep it quiet until we could talk about it again.

2. Secretary Duncan asked me if I would be amenable to considering having the military service and DIA HUMINT managers collocated with our HUMINT people in Langley. He didn't want to try this on the military without some indication I might be willing to consider it. I asked if this was a substitute for putting the DIA in Langley. The answer was no. I further added that I had come to a figure of about  what DIA 25X1 could put in Langley to meet the need of better coordinated analysis; and if we added  it would still be under  limit the Planning 25X1 Authority had given us. Secretary Duncan indicated they would be back to me next week about the DIA building.
